Race Class: Pro Sport & A

Background

My Dad and Mom bought my first 50cc quad when I was 3 1/2 years old. I entered a few races when I was 5 years old on an Extreme quad however the quad was just too large for me. When I turned 8, my parents bought me a DRR 70cc CVT and finally found the perfect fit. I actively raced from there on. I moved on to a JB mod 90cc and a JB mod 150cc and currently I am racing a Honda TRX 450cc. I am very serious about my future with racing. I ride every weekend that there is not a race by traveling to Pennsylvania, Delaware, West Virginia, North Carolina and Florida as well as I train with other great riders to hone my skills. I have been training over the years with Dylan Tremellan, Nick Moser, Brett Musick, Westley Woolfe, Jacob Stevens, Ronnie Higgerson, Ryan Korody and Nick Gennusa. This past winter and training season, I trained with Thomas Brown, Cody and Bryce Ford and I also train in Florida. I am very dedicated and committed to succeeding. I am not a rider that throws a fit after a bad race or makes his sponsors or team look bad. I represent my sponsors and always present myself in a professional manner. I graduated in June 2017 from a Vocational school to learn a trade in HVAC and Electricity.

Season Highlights

70cc CVT - 5th Place - Fall Classic - Englishtown

Plans for 2020 Season

My plans for the 2020 season are high ones but I know I have the dedication and drive to fulfill all my goals. I am part of the Ford Brothers Racing Team. I am planning on racing the AMA ATV MX National Series. I will also be racing any other side races on the off weekends to keep working on my racing skills. I want to be the best I can! I am a confident holeshot racer and I am always aiming to race the best on race days. I will be training hard over the winter to move up to Pro Sport and A class.

What I Am Looking for In a Sponsor

My parents spend everything on this sport and one day it will be my responsibility. I am hoping to find a sponsor who helps out with free or discounted parts or any support they can offer me. What you can look for in return for choosing me as a sponsored rider for the 2019 season are the following: I will advertise your company to the fullest... I have my own website where I will advertise your logo along with the link to your company. I will mention your company in interviews/podium throughout the year and will display your company logo on my bikes. My family will also represent your company on and off the track and refer others to your company for business. I will wear your company apparel as well. I will represent your company in the most professional manner and you will not be disappointed.
